

Integrated
on-board battery

Height
adjustable

PRODUCT DETAILS

Workstation on Wheels

The Workstation on Wheels is a battery powered medical cart designed to easily transport and facilitate the use of technology anywhere within the hospital, and assist with a variety of tasks such as EPR* data collection and electronic observations. Each trolley features pneumatic height adjustment ensuring an ergonomic work station for all users.

The cart is available with a large work surface, providing room for a keyboard and mouse alongside a range of secure screen mounting options. The Workstation on Wheels is compatible with all-in-one medical grade computers and also features storage space below the worktop facilitating the integration of a small PC.

- **Accommodates all users**

Pneumatically height adjustable from 865-1154mm with flexible tray configurations.

- **Storage space**

Located below the worksurface for small PCs, power adaptors and other essential items.

- **Easily cleanable**

Infection control friendly design, with anti-bacterial and cleanable surfaces, preventing accumulation of dirt and germs.

- **Adaptable to your needs**

Able to accommodate and integrate a wide range of laptops, monitors and all-in-one medical grade computers.

- **Easy transportation**

Ergonomically designed with a small footprint, slim profile and built in handles for easy manoeuvrability.

- **Keep your worksurface tidy**

Integrated cable management and cable ports.

- **Customisable PC aperture**

Enabling easy access without sacrificing security for your IT equipment.
