

AIO PC on Wheels

The AIO PC on Wheels has been specifically designed to suit the use of all in one computers. Rather than fitting an AIO to a cart designed for a conventional PC or laptop, we have designed this product from the ground up with AIOs in mind.

Our trolley features height adjustment from a seated height all the way to an ergonomic standing position, as well as an independently height adjustable screen mount. To maximise workspace and productivity, we have also included an ambidextrous slide out mouse tray.

The cart features our universal mounting system which allows peripherals such as printers and scanners to be easily fitted to the cart. This mounting system future proofs your investment, allowing you to change peripherals easily in future as new technologies become available.

- **Accommodates all users**

Pneumatically height adjustable from 685-1100mm.

- **Storage space**

Located below the worksurface for power adaptors and other essential items.

- **Easily cleanable**

Infection control friendly design, with anti-bacterial and cleanable surfaces, preventing accumulation of dirt and germs.

- **Ideal for AIO PCs**

The worksurface is spacious and perfectly suited to your AIO PC of choice, removing any overhang and potential damage to expensive IT hardware.

- **Easy transportation**

Ergonomically designed with a small footprint, slim profile and built in handles for easy manoeuvrability.

- **Keep your worksurface tidy**

Integrated cable management and cable ports.
