Bradbury House

Point-of-Care Precision: Drug Dispensing Trolleys

How Bradbury House Modernised Medication Dispensing...

Project Overview

Bradbury House sought a modern solution to streamline medication rounds and improve accuracy of record-keeping. Working closely with their care team, we supplied a lightweight mobile drugs trolley equipped with a securely mounted iPad – creating a fully equipped workstation for medication rounds. This setup allows staff to dispense medication directly at the point of care while logging every administration immediately on the iPad.

Key Project Criteria:

- **Reduce potential for errors**
Real-time digital logging ensures accurate medication records.
- **Improved efficiency**
Record rounds instantly at the bedside without the need to return to a computer.
- **Greater staff confidence**
Consistent digital records build trust and reduces uncertainty.
- **Enhanced work flow**
All tools and records in one mobile workstation for seamless rounds.

How did we help?

The Solution

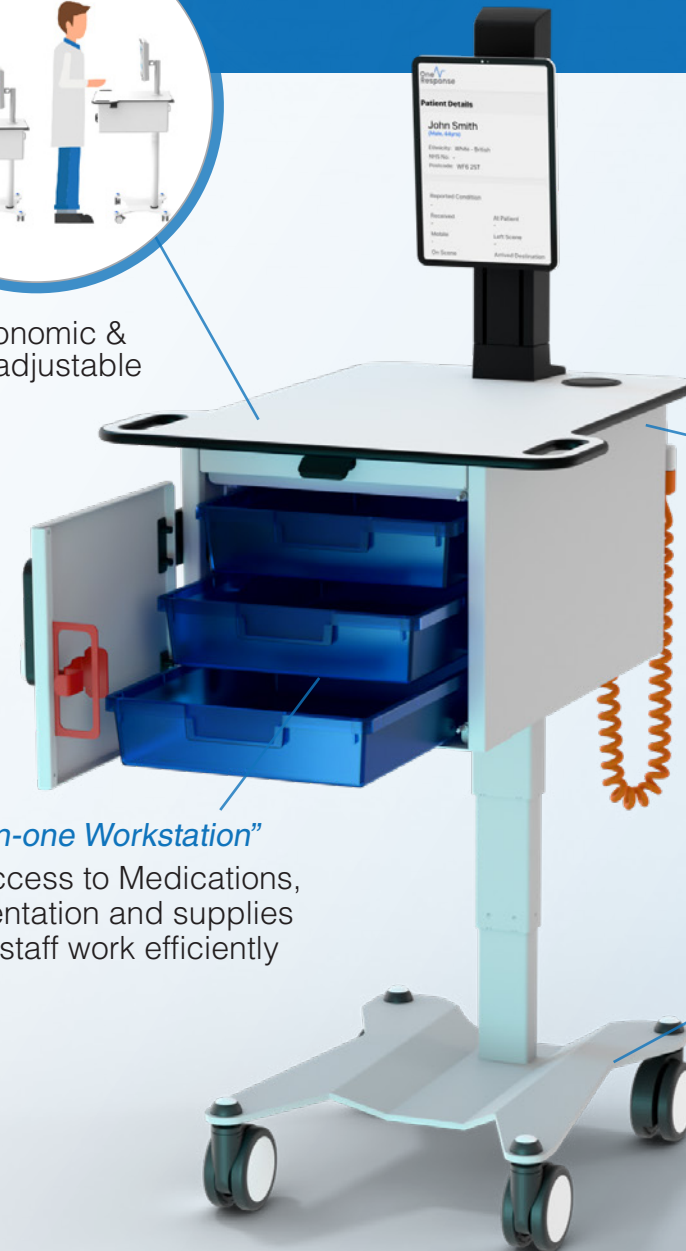

By bringing the trolley and electronic record-keeping together in one mobile unit, Bradbury House has reduced the risk of errors and made medication rounds more efficient.

MEDICAB LITE + IPAD

- **Lightweight trolley design**
Easy to manoeuvre between rooms, supporting staff during medication rounds.
- **Secure iPad mount**
Positioned for comfortable use at the trolley, giving staff instant access to electronic records.
- **Point-of-care logging**
Administration is recorded in real time, reducing reliance on paper notes or later transcription.
- **All-in-one workstation**
Medications, documentation, and accessories are kept in one place for smoother workflow.
- **Simple, robust build**
Designed for everyday use in a care environment, with smooth surfaces for easy cleaning and infection control.

Ergonomic & fully adjustable

“Secure iPad Mount”

Ensuring the equipment is secure, safe and allows for ergonomic adjustment

Infection control friendly

“All-in-one Workstation”

Quick access to Medications, documentation and supplies allows staff work efficiently

“Lightweight Trolley”

With easy glide casters for manoeuvrability the trolley can be used at point-of-care

Benefits for Bradbury House

- **Reduced potential for errors**
Thanks to real-time digital logging.
- **Improved efficiency**
As staff no longer need to return to a fixed computer to record medication rounds.
- **Greater staff confidence**
In the accuracy and consistency of records.
- **Enhanced workflow**
With all equipment and records kept together on one compact workstation.

Feedback

Staff at Bradbury House have found the mobile trolley easy to use and value the ability to carry out both dispensing and logging in one place. The combination of a lightweight cart and integrated iPad has helped streamline daily routines and strengthened medication management across the home.
