

Integrated on-board battery

Height adjustable

Workstation on Wheels

The Workstation on Wheels is a battery powered medical cart designed to easily transport and facilitate the use of technology anywhere within the hospital, and assist with a variety of tasks such as EPR data collection and electronic observations. Each trolley features electric height adjustment ensuring an ergonomic work station for all users.

- **Accommodates all users**

Electric height adjustable from 865-1154mm with flexible tray configurations.

- **Storage space**

Located below the worksurface for small PCs, power adaptors and other essential items.

- **Easily cleanable**

Infection control friendly design, with anti-bacterial and cleanable surfaces, preventing accumulation of dirt and germs.

- **Adaptable to your needs**

Able to accommodate and integrate a wide range of monitors and PCs.

- **Easy transportation**

Ergonomically designed with a small footprint, slim profile and built in handles for easy manoeuvrability.

- **Keep your worksurface tidy**

Integrated cable management and cable ports.

- **Customisable PC aperture**

Enabling easy access without sacrificing security for your IT equipment.
